The Hurricane REU program at the University of South Florida provides a stimulating and interactive 9-week summer research experience for undergraduates. This interdisciplinary program fully engages students in a collaborative exploration at a Research I institution with distinguished faculty mentors drawn from disciplines such as Anthropology, Sociology, Education, Geography, Public Health, Humanities, and Social Work.

This 9-week REU consists of four components:
- Mentored Research Project
- Hurricane Research Methods Seminar
- The Social Dynamics of Hurricane Vulnerability
- Ethics and Diversity Training

**Benefits Include:**
- $3,600 Stipend
- On-campus housing or off-campus supplement
- Six credit hours
- Textbooks
- Travel Reimbursement
- USF Library privileges
- Post-program support
- Professional Development Workshops
