This is a combined laboratory course (2 credit hours). Students will receive credit for both Cell Biology Lab (PCB 3023L) and Genetics Lab (PCB 3063L) by taking this course. Your final grade will be reflected twice on your transcript.

- **Requirements:** Have taken or are currently taking Cell Biology and Genetics lecture. Additionally, the student must **not** have taken either Cell Biology Lab or Genetics Lab.

- **Day/Time:** Tuesdays and Thursdays 2-4:50pm

- **Instructor permits** required. Contact Dr. Jones-Mason by email: jonesmason@usf.edu. Please include your U# and mention if / when you have taken Cell Biology and Genetics Lecture. Any seats remaining after Nov 25 will be open to all majors.

- **IMPORTANT** Permits will be for both CRN 21854 (Cell Bio Lab - section #30) and CRN 22439 (Genetics Lab – section #30). You must register for both of those sections to be registered for this course. Students will also be permitted to register for IDS 4914 Advanced Undergraduate Research.

For CMMB majors

Instructor: Beth Jones-Mason, PhD
